Mt. Pleasant Firm Wins First Matching Grant from Technology Tri-Corridor Fund

Mt. Pleasant-based DCM Associates is the first company to qualify for a matching grant from the Michigan Technology Tri-Corridor's Emerging Business Fund. DCM develops online training courses for the handling of hazardous materials. The matching fund helps entrepreneurs strengthen their applications for federal Small Business Innovation Research (SBIR) grants in the life sciences, homeland security and advanced automotive technology sectors. DCM received an SBIR grant from the National Institute of Environmental Health and Sciences for its plan to create Web-based training for the transportation of hazardous materials. **[Read more](#)**
